The Rev. Mr. McBride. This caused much dissatisfaction among the members of the church, as they desired to retain Mr. McBride. An attempt was made to the effect to change the appointment, but without success. At first there was talk of closing the doors of the church against the new pastor, but the members finally became reconciled to Mr. Palmer and he will preach today.

ALBANY.

LETTER FROM ASSEMBLYMAN HOAG.

STATE OF NEW-YORK, ASSEMBLY CHAMBER, ALBANY, April 13, 1883.

During my temporary residence here the past week I have traced a severe cold which for a time confined me to my room and rendered me unable to attend to my duties. I not only suffered the inconvenience which usually attends a heavy cold, but was afflicted with a stiffness in the chest, accompanied with a severe pain, which rendered it difficult to breathe. I tried the usual remedies—cough drops, cough pills, etc., but received no substantial relief until I applied ALLCOCK'S PLEURAL PLASTER to my back and chest.

These I put on when retiring, and was delighted to find myself much better the next morning. In two days I was well, and the experience I have had with ALLCOCK'S PLASTER in my family, has convinced me that for coughs, colds, sprains, bruises, rheumatism and local pains, ALLCOCK'S PLEURAL PLASTER is the quickest and most effective remedy extant.

ALLCOCK'S PLEURAL PLASTER. A CURATIVE HOST IN ITSELF. No. 77 MACDONALD ST., NEW-YORK, March 9, 1883.

We have used ALLCOCK'S PLEURAL PLASTER a number of years for the many "ills that flesh is heir to," receiving the needed benefit every time, but that which brought their virtue to the most severe test was a hurt that neither resolved by the sixth day, nor in May last. She was pushed off backward by a drunken conductor, and her knee and hip severely wrenched and sprained.

The nerves of the hip and knee were in such a state, and the agony so great, she could not walk a step. As soon as we could get her home I placed her feet in hot water, but that made her almost wild. I took them from the hot water as soon as possible, and not knowing what else to do, I took the whole of the plaster from the hip to the knee, and applied it to the injured parts. The relief was almost instantaneous, and up to this day all the relief and the only relief she can get is through and by your plaster. Rheumatism does not set in to one of the large toes and no one can tell the misery mother suffered with that. I am small, thin, and your plaster relieved the entire foot and back with your plaster, and in less than an hour the danger was passed and the pain, heat and tightness all gone.

I often have a severe pain under my right shoulder, caused by liver trouble; by wearing a plaster a little while the pain is all gone.

We have tried many other kinds of plasters, but never found any equal to ALLCOCK'S.
